

POLYAMIDE TEXTURED YARNS BCF GRADE SHINE AND MATTE

Application: yarns are intended for the production of carpets and various technical products.

Specifications:

Name of indicator	Norm for yarn textured yarn	
	Shiny	Matted
Nominal linear density, tex	130	180
Deviation of actual linear density from the nominal one, %	± 5,0	± 5,0
Tenacity, mN/tex, min	200,0	200,0
Yarn elongation at break, %, max	30,0-50,0	30,0-50,0
Number of pneumatic connections per 1 m, pcs.	20 – 35	20 – 35
Specific surface electrical resistance, Om, max	25x10 ¹¹	25x10 ¹¹
Number of filaments in the complex, pcs.	128	128
Hot air shrinkage, %, max	8,0	8,0
Curl degree, %, max	12	12
Resistance of pneumatic connections to threefold load action weighing 1 kg, %	60-90	60-90

Package: block package on pallets.
